14	Menu - Documents	Documents see note [3]	filter on member id or last_name		PENDING												
15	Document Management	Documents			PENDING												
16	All data tables to be fixed to left and right of screen, and also bottom. Fully responsive.				PENDING												
17	All UI links to have a page assoicated with it, even if it says under contruction.				PENDING												
4	Admin Settings Page [4]				PENDING				25th May 2023								
5	WIP (Work In Progress) [5]				PENDING				----								
6	members profile page [6]				PENDING	21st May 2023			25th May 2023								

[1] During Logout i'll store the logout time , ip and the records would be shown in a page in a table format at the admin panel.
Could perform this action from any page inside the Admin Panel

[2] Menu Structure:-
All Orders (orders table)
----- (line spacer)

JS Orders (orders table filtered on business _line JS)
JS Members (members table filtered on business _line JS)
----- (line spacer)

MFS Orders (orders table filtered on business _line MFS)
MFS Members (members table filtered on business _line MFS)
----- (line spacer)

Perks
Document Management

[3] document id
document_name
member_id
member first name
member last_name
url link to open document of file stored in spaces (open in modal)

[4] ability to update settings and change password

[5] this is where most of the work will be, it will be merging of orders and progress.. I need to type up more on this

[6] this will display all data from members table for specific member that has been chosen from the members list

there page will also need to show all orders the member has placed, so that will be reading the orders table and filtering on the member id

it will also show status of working being done, which i am working on the format of this table
